

PE – Volleyball and Gymnastics. We will be learning the game of volleyball, working on technique and moving around the court. During our gymnastic sessions, we will be working in small groups, sequencing routines and using the equipment.

Guided reading Text: Tamarind and the Star of Ishta by Jasbinder Bilan

White Rose Maths: Fraction

Wk 4-6

Wk 6

Computing: Repetition in shapes
This unit looks at repetition and loops within programming. Pupils will create programs by planning, modifying, and testing commands to create shapes and patterns using "Logo".

Geography – Tropical Rainforests
The children will be looking at Rainforests across the world, the importance of them and how we protect those that are under threat.

PSHE: Computer Safety
The children will be recognising the key values that are important in positive online relationships. Identifying the feelings & emotions that may arise from online bullying and also identify how and who to ask for help.

English: Literacy Tree Text: The Crown by Emily Kapff

White Rose Maths:
Length and perimeter

Wk 4-6

Wk 3- 5

RE:
How do people think about poverty, justice and self-sacrifice?

Science: Chemistry - The Particle Model
Children will look at the properties of particles in solids, liquids and gases, and how this changes when changes of state occur. They will investigate evaporation and apply this knowledge to learn about the water cycle.

Art: Watercolours – Tropical Rainforests
Year 4's will be learning about Abel Rodriguez and will be doing observational drawing and watercolours.

French: French numbers, calendars and birthdays - Year 4 will be learning numbers 1-31 in French. They will also be learning days of the week, months of the year and the four seasons.

English: Literacy Tree Text:
Frindleswyde by Natalia O'Hara
