

13th September 2026

Dear Parent/Carer

We are aware of the ongoing issues affecting the water supply in Royal Wootton Bassett and will be closely monitoring the situation throughout the evening and overnight.

At this stage, we are unable to confirm whether the disruption will have any impact on the opening of the school tomorrow.

We are in regular contact with the relevant authorities and will continue to assess the situation as further information becomes available.

We aim to provide a further update by **6:30am tomorrow morning**, confirming whether the school will open as normal or if any alternative arrangements are required.

Thank you for your patience and understanding whilst we monitor the situation. Please keep an eye on your texts as this is where we will send an update in the first instance.

With Warmth

Hilary MacMeekin
